

LOOKING TO INVEST IN GOLD?

Why Consider Troy Resources?

Troy is a profitable gold producer, headquartered in Perth, Western Australia and listed on both the ASX and TSX (code: TRY).

Troy is committed to pursuing growth through exploration, acquisition of new projects and/or corporate merger activity.

In March 2013, Troy announced the friendly off market takeover of Azimuth Resources Limited. The transaction closed in July 2013, creating a South American focused gold company with operating gold mines in Argentina and Brazil and a new exciting growth project in Guyana.

Azimuth's key asset is the high grade West Omai project in Guyana. Troy is continuing with infill drilling of this resource and is targeting the release of a Pre-Feasibility Study in early 2014 and if positive, would look to move quickly to project construction.

Troy's gold and silver production is unhedged; allowing its shareholders access to the full benefit of current and future gold price upside.
